Paid Summer Internship

Job Title: Stream ecology intern

Compensation: $8.30 per hour plus room and board (valued at $2500)

Dates: June 25- August 17, 2018

Internship Description:

This intern will be working with FLBS personnel to: develop methods to estimate the isotope composition of dissolved carbon dioxide in stream water using a light-based isotope analyzer. The internship will provide opportunities for field work and lab work on local streams. Incumbent will develop procedures in conjunction with R. O. Hall and a postdoc

Qualifications:

- Must be a continuing undergraduate student
- Course work in introductory chemistry and physics.
- Preference will be given to students working toward BS degree in chemistry, biology, or related field.

How to Apply (application deadline: March 11, 2018):

UM students: use Handshake, UM’s job search program
Non-UM students send a cover letter and resume to: monica.elser@flbs.umt.edu
