Drone Remote Sensing of Freshwater Ecosystems
BIOB 491 • August 6-17, 2018

SUMMER SESSION 2018
at University of Montana’s Flathead Lake Biological Station

- Learn cutting-edge technology to assess and evaluate aquatic ecosystems at the landscape scale.
- Combine classic ecosystem analyses with remote sensing for sound ecosystem monitoring and management.
- Acquire skills in remote sensing and GIS to enhance your education, research, or professional expertise.

Apply now through May 11, 2018!
- Scholarships available!
- Small class size and great faculty
- Students from around the US and abroad
- Credits easily transferable

Instructors:
Dr. Michael Döring
ZHAW
michael.doering@zhaw.ch
Diane Whited
