Aquatic Microbial Ecology BIOE 400
July 8 - July 19, 2019
SUMMER SESSION 2019
at University of Montana’s Flathead Lake Biological Station
Apply now through May 6!

Instructor:
Dr. Matthew Church
Associate Professor - Aquatic Microbial Ecology
matt.church@umontana.edu

- Take this immersion-style 3-credit course for grad or undergrad credit!
- Scholarships available!
- Small class size
- Great instructor
- Students from UM, and other universities around the US and abroad
- Credits easily transferable

Apply online at http://flbs.umt.edu/apps/education

Learn major concepts in microbial ecology and environmental microbiology.
Apply cutting-edge tools and methodologies to study aquatic microbes in diverse habitats.
Gain familiarity with the role of microorganisms in regulating aquatic biogeochemistry.
Develop widely applicable lab- and field-based science skills.
