Paid Summer Internship (40 hours per week)

**Job Title:** Conservation Database Coding Intern

**Compensation:** $8.65 per hour plus room and board (valued at $2500)

**Dates:** June 22- August 14, 2020

**Internship Description:**

- This intern will be working with FLBS personnel to:
  - write scripts to integrate data on the occurrence of invasive aquatic species from different national databases and generate tools for agencies to use for prioritizing their monitoring and management.
  - contribute to the development of a national aquatic invasive species database and other spatial products to help agencies more effectively prevent spread of harmful non-native and invasive species.
- The internship will provide opportunities to:
  - work with large databases and develop online tools
  - jumpstart a career in graduate-level research
  - participate in important conservation work
  - make contacts with major state and federal agencies in wildlife conservation

**Qualifications:**

- Ability to program in Python and R and have web-based programming skills is preferred
- Must be a continuing undergraduate student

**How to Apply** (application deadline: Feb 28, 2020):

UM students: use Handshake; search for Flathead Lake Biological Station
Non-UM students: send a cover letter, resume including contact information for a reference to Monica Elser at monica.elser@flbs.umt.edu
