

CURRICULUM VITAE for RACHEL L. MALISON

25 May 2022

Flathead Lake Biological Station
Ecology & Evolution Program, Division of Biological Sciences
The University of Montana
Address: 32125 Bio Station Lane, Polson, MT 59860
Phone: (406) 872-4518, Fax: (406) 872-4554, Cell: (406) 260-7048
Email: rachel.malison@umontana.edu, wilkrach@gmail.com
Website: www.rlmalison.com, twitter @rlmalison
ORCID ID: 0000-0001-6803-8230

EDUCATION

Ph.D., Systems Ecology, 2013. The Flathead Lake Biological Station, Department of Biological Sciences, The University of Montana, Missoula, Montana. Advisor: J.A. Stanford

M.S., Biology, 2008. Department of Biological Sciences, Idaho State University, Pocatello, Idaho. Advisor: C.V. Baxter

B.A., Biology, 2004. Department of Biological Sciences, The University of Montana, Missoula, Montana. Davidson Honors College Graduate.

PROFESSIONAL EXPERIENCE

Assistant Research Professor

The Flathead Lake Biological Station (FLBS) / Ecology & Evolution Program, University of Montana (2021-Present). I conduct freshwater research and also continue to run the MMW program at FLBS.

Program Manager of Monitoring Montana Waters (MMW)

The Flathead Lake Biological Station (FLBS), University of Montana (2020-Present). I run a program that increases the capacity for water quality monitoring efforts in Montana by providing scientific, technical and financial support to citizen-led water monitoring groups.

Postdoctoral Scholar

The Flathead Lake Biological Station (FLBS), University of Montana (2017-2021). My postdoctoral position was part of a Dimensions of Biodiversity NSF Grant studying the vulnerability of stoneflies in river floodplains.

Marie Curie Fellow and Research Ecologist

Norwegian Institute for Nature Research (2014–2017). I researched the influence of Eurasian beavers on juvenile Atlantic salmon and trout in rivers near Trondheim, Norway.

Graduate Research Assistant

The Flathead Lake Biological Station, University of Montana (2008-2013). Research for my PhD dissertation was conducted in the Yukon Delta National Wildlife Refuge in partnership with the US Fish & Wildlife Service. Research focused on the influence of beavers on juvenile Pacific salmon populations in a large river floodplain.

Graduate Research Assistant

Department of Biological Sciences, Idaho State University (2005-2008). Research for my MS was conducted in the Frank Church Wilderness and focused on the effects of wildfire on stream-riparian linkages.

Undergraduate Research Field Assistant

The Flathead Lake Biological Station, University of Montana (2004). Research and monitoring data collection was conducted on the Kitlope River, BC as part of the Salmonid Research Observatory Network.

TEACHING EXPERIENCE

The University of Montana (2022). Instructor, MOLLI (Osher Lifelong Learning Institute). Course: Stream and Floodplain Ecology.

Salish Kootenai College (2021, 2020). Guest Lecturer. Course: Aquatic Field Ecology with Georgia Smies

The University of Montana (2021, 2019, 2018). Guest Lecturer, Flathead Lake Biological Station. Course: Conservation Ecology.

The University of Montana (2017). Guest Lecturer, Flathead Lake Biological Station. Course: Drone Remote Sensing.

The University of Montana (2013). Co-instructor, Flathead Lake Biological Station. Course: Field Ecology.

The University of Montana (2012). Graduate Teaching Assistant, Flathead Lake Biological Station. Course: Field Ecology

The Glacier Institute, Montana (2012). Field Instructor, Course: Middle Fork River Ecology by Raft

GRADUATE STUDENTS

Michelle Fillion	M.S. Student (co-advised)	2021-present	<i>University of Montana</i>
Megan Ritter	M.S. Student (committee)	2018-2019	<i>Bucknell University</i>

GRANTS RECEIVED

Investigating adaptations of aquifer stoneflies. 2022. University of Montana UGP Seed Grant. Principle Investigator: R.L. Malison. \$14,997.

Mapping the spatial and temporal thermal trends of the lower Kuskokwim and Aniak Rivers. 2021. Southwest Salmon Partnership NFHP Proposal. Principle Investigators: D. Whited, R.L. Malison, and D. Gillikin. \$77,783.

Research Contract to peer review evidence of interactions between beavers and fish and fisheries in England and Wales. 2021. Devon Wildlife Trust, England. Principle Investigator: R.L. Malison. \$1,336.

Conserving biota by conserving water: the effects of beaver dam analogs on aquatic insect communities in headwater streams. 2020. W.A. Franke Fresh Water Conservation Initiative. Principle Investigators: B. Colman, R.L. Malison, and L. Eby. \$39,444.

Mapping the spatial and temporal thermal trends of the Kuskokwim and Aniak Rivers. 2020. Alaska Sustainable Salmon Fund. Principle Investigators: D. Whited, R.L. Malison, and D. Gillikin. \$93,769.

Alpine stonefly physiology and local adaptation: How can we manage for imperiled species at high elevations? 2019. Department of the Interior Northwest Climate Adaptation Science Center Research Fellowship. Principle Investigators: B. Hand and R.L. Malison. \$53,139.

Effects of changing stream temperatures on Montana stonefly communities. 2019. Montana Water Center Faculty Seed Grant. Principle Investigators: H.A. Woods and R.L. Malison. \$15,000.

Monitoring of spawning salmon and sea trout in Gråelva, Stjørdal. 2015. Fylkesmannen I Nord-Trøndelag. Principle Investigator: R.L. Malison. \$2,800.

Do beavers negatively impact the Atlantic salmon and sea trout resource? 2014-2016. Marie Curie International Incoming Fellowship (IIF), European Union. Principle Investigator: R.L. Malison. \$332,672.

Dr. Robert L. Gilbertson Scholarship, UM. Spr. '13, Spr. & Fall '12, Spr. & Fall '11, Fall '10. R.L. Malison. \$2600.

Montana Institute on Ecosystems PhD Fellowship. Spring 2012. R.L. Malison. \$8700.

MT NSF EPSCoR Large River Ecosystem Fellowship. Spring 2011. R.L. Malison and J.A. Stanford. \$6800.

UM, Bierman Research Endowment. Fall 2009 and Spring 2010. R.L. Malison. \$2950.

ISU, Department of Biological Sciences. '08, '07, Spr. & Fall '06 & '05. R.L. Malison and C.V. Baxter. \$500.

ISU, Graduate Student Research and Scholarship Committee. Dissemination Grant. Fall 2006. R.L. Wilkinson and C.V. Baxter. \$500.

ISU, Biological Graduate Student Association. 2006 & 2007. R.L. Wilkinson and C.V. Baxter. \$200.

ISU, Office of Research. 2006. R.L. Wilkinson and C.V. Baxter. \$150.

ISU, Graduate Student Research and Scholarship Committee. Research Grant. Fall 2006. R.L. Wilkinson and C.V. Baxter. \$1000.

PROFESSIONAL SERVICE

Invited Reviewer (2011-Present). *Ecology, Ecosystems, Environmental Entomology, Freshwater Biology, Journal of Freshwater Ecology, Journal of Applied Ecology, Journal of Arid Environments, Marine and Freshwater Research, Annales Zoologici Fennici, Transactions of the American Fisheries Society, Punjab University Journal of Zoology, Forest Ecology and Management, Ecology of Freshwater Fish, Science of the Total Environment, Environmental Biology of Fishes, Freshwater Science, Ecosphere.*

Grant Proposal Reviewer. (2017) National Science Foundation – Arctic Natural Sciences.

AFS Chapter Secretary (2005-2006). ISU Portneuf River Student Chapter.

UNIVERSITY SERVICE

Committee Member (2017-2019). Graduate and Postdoctoral Programs Committee, Flathead Lake Biological Station, The University of Montana.

Committee Member (2017-2019). Undergraduate Programs Committee, Flathead Lake Biological Station, The University of Montana.

Committee Member (2005-2007). Biology Graduate Student Association, Department of Biological Sciences, Idaho State University, Treasurer (2005-2006).

SYNERGISTIC ACTIVITIES AND OUTREACH

Co-organized Montana Aquatic Research Colloquium (MARC 2022) for graduate students, postdocs, faculty and water professionals in Montana.

Member of the Flathead Basin Commission Technical Committee (2022 – present) – provide scientific advice for watershed and water quality issues.

Presenter (2021). Presented about river floodplain ecology, juvenile salmon and macroinvertebrates to the Orutsararmiut Native Council Science and Culture (virtually) in Bethel, AK.

Presenter (2020). Presented about the Flathead Lake Biological Station and river ecology research to the Bigfork Rotary Club. 20 May 2020.

Presenter (2020). Presented research on river floodplains and stoneflies at the “Science Quenchers” event held by the Whitefish Lake Institute. 17 Jan 2020.

Salmonids Focal Group Lead for “Advancing Scientific Knowledge of Mining Impacts on Salmonid-Bearing Watersheds” (Oct 23-27 2019) – engaged a diverse network of science and policy experts to address mining impacts on salmonids.

Member of the Transboundary Rivers Scientific Advisory Committee (2019 – present) – provide advice on transboundary research between Alaska and Canada on the effects of mining on freshwater systems.

Co-organized International genetics course (ConGen 2019 & 2020) on Population Genetic Data Analysis for graduate students, postdocs, and faculty in Montana. Class website: (<http://www.umt.edu/sell/cps/congen/>).

Mentorship of young scientists (2017 – present) – Mentored undergraduates, recent graduates, graduate students and volunteers that have taken part in my research program. 2017: Supervised 4 volunteers (Kriddie Whitmore, Garrett Frandson, Megan Ritter, Wesley Sigl) and 1 intern (Hailey Jacobson). 2018: Supervised 4 volunteers (Erin Lee, Melanie McMillan, Hailey Jacobson, Taylir Schrock), 3 interns (Brenna Previlige, Faith Breen, Eliza Keksi), and 2 employees (Kridde Whitmore, Wesley Sigl). 2019: Supervised 3 volunteers (Haley Dole, Dan Harvey, Lexi DeLisle), 1 employee (Julia Cotter), and 2 interns (Clara Monkowski, Grant Marshall). 2020: Supervised 1 intern (Jazzelle Elias). 2021: Supervised 2 interns (Lillian Krach and Brianna Maxwell). 2022: Supervised 2 interns (Brianna Maxwell and Kaycee Kimmel).

Presenter (2019). Presented to the North Fork of the Flathead River Landowners Association group about stoneflies and floodplain ecology.

Presenter (2019). Science on Tap - Flathead, presentation of “Ecology of river floodplains and their hidden groundwater stoneflies” to the local community.

Presenter (2018). Presented to the Kalispell chapter of Trout Unlimited about Floodplain Ecology.

Lecturer (2017 and 2018). Led field educational days for different groups (FLBS interns and middle school students) on the Nyack floodplain, MT, to teach students about river and floodplain ecology.

Presenter (2019, 2018, 2017, 2013, 2012, 2008). Taught adults and children about aquatic insects and river/floodplain ecology at the annual Flathead Biological Station Open House.

Presenter (2013). Guest lecture to 7-8th graders for a Montana Junior High School career day.

Presenter (2009, 2010). USFWS Yukon Delta National Wildlife Refuge Science Camp. Annually taught native students about river ecology on the Kwethluk River.

Montana Science Fair Judge (2003, 2004, 2012, 2018). Judged biological science projects for the Montana Science Fair.

Committee Member (1998-2008). Rocky Mountain Elk Foundation, Selkirk Crest and Southeast Idaho Chapter Committees, Idaho. Main duties include assisting with preparation and operation of annual banquets to raise funds for conservation.

Guest Presenter (2006). Pocatello Greenway Riverfest, Idaho. Volunteered with the ISU Stream Ecology Center, teaching children and adults about stream ecology.

Community Environmental Fair Presenter (2006-2007). Pocatello, Idaho. Volunteered with the ISU Stream Ecology Center to teach children and adults about stream ecology and aquatic insects living in the Portneuf River.

Classroom Instructor and Festival Assistant (2003). Clark Fork Watershed Festival, Community Watershed Education Experience, University of Montana, Missoula, Montana. Participated in a semester-long community watershed class, conducted classroom visits with 6th graders, and served as a guide for the Watershed Festival on May 1st, 2003.

HONORS AND HONOR SOCIETIES

Department of the Interior Northwest Climate Adaptation Science Center Fellow (2019-2020)

Marie Curie International Incoming Fellow (2014-2016)

Montana Institute on Ecosystems Fellow (2012)

American Fisheries Society – EOS Travel Award (2012)

Society for Freshwater Science Endowment Award (2012)

American Fisheries Society Finalist for Best Student Paper (2012)

North American Benthological Society Presidents Award (2007)

PROFESSIONAL AFFILIATIONS

American Fisheries Society

Ecological Society of America

Society for Freshwater Science

Rotary Club of Bigfork (Secretary 2021 – Present)
