Paid Summer Internship (40 hours per week)

Job Title: Alpine Field Ecology Intern

Compensation: \$10.00 per hour plus room and board (valued at \$2700)

Dates: June 19- August 11, 2023

Internship Description:

- This intern will be working with FLBS personnel to sample snow algae in various locations in northern Rocky Mountains and support a field experiment with snow algae
- The internship will provide opportunities to: learn methods of field sampling for snow algae studies; learn about ecology of cryosphere ecosystems.

Qualifications:

- Must be a continuing undergraduate student
- Basic introductory course work in biology, microbiology, ecology, conservation biology, earth sciences.
- Applicant should work well as part of a team, have a positive attitude, and a desire to learn.
- Applicants should be capable of hiking in rough terrain and wading in streams, as well as be comfortable conducting fieldwork regardless of the weather.

How to Apply (application deadline: Feb 26, 2023):

UM students: use Handshake; search for Flathead Lake Biological Station

Non-UM students: send a cover letter, resume, and contact information for two references to Monica Elser at monica.elser@flbs.umt.edu
