

Remote Sensing for Freshwater Ecology

GPHY 474 (3 credits) undergrad or graduate credit
July 20-July 31, 2020

SUMMER SESSION 2020

at University of Montana's Flathead Lake Biological Station

- Learn cutting-edge technology (UAV, ADP) to assess and evaluate aquatic ecosystems at the landscape scale.
- Combine classic ecosystem analyses with remote sensing for sound ecosystem monitoring and management.
- Acquire skills in remote sensing and GIS to enhance your education, research, or professional expertise.

Instructors:

Dr. Michael Döring

ZHAW, Switzerland

michael.doering@zhaw.ch

Diane Whited

UM, FLBS

diane.whited@umontana.edu

- Experiential learning from data acquisition to final analysis
- Scholarships available!
- Small class size and great faculty
- Students from around the US and abroad
- Credits easily transferable

- Scholarship applications due March 16
- Last day to apply: May 4, 2020!

Apply online at: <http://flbs.umt.edu/apps/education>
